

Overview

Quick-disconnect components for fluid lines; hydraulic and pipeline connector types are selected separately.

Construction and Configuration

The specifications above apply to stainless-steel pipeline quick couplings. Hydraulic quick couplings use a different configuration; their connections and rated pressure must be checked separately.

Key Data

Pipeline coupling model	Pipeline coupling size	Pipeline coupling material	Thread type
A、 B、 C、 D、 E、 F、 DC、 DP	1/2"—6"	AISI304、 AISI316	NPT、 BSPT、 BSP、 DIN2999

Selection

Select by equipment model, pipe diameter, rated load or torque, and connection dimensions. Check each size within the same series separately.
